## **PAYCE Signs Sponsorship Deal With Volvo Polestar GRM V8 Supercars Team**

Sydney, 8<sup>th</sup> December 2014

Continuing with its support of Australian motorsport, PAYCE has signed a sponsorship deal for the next two seasons of the V8 Supercars Championship with this year's high-performing Volvo Polestar Racing team.

Also joining the team as the driver of the second Volvo S60 will be multi-talented driver, David Wall, who continues a long association with PAYCE.

From January 2015, the two-car team will be known as Wilson Security Racing GRM.

With PAYCE joining Wilson Security on the Volvo S60 V8 Supercars in 2015, opportunities beyond the race track are already being actively discussed with Volvo Car Australia.

PAYCE's Managing Director, Brian Boyd, a keen fan and supporter of Australian motorsport, says he is thrilled to be on board with the new team headed by Volvo Car Australia.

"2014 has seen some big changes in the V8 Supercars field, with Volvo the most successful of the new brands competing," he said.

"I am looking forward to a great relationship with Volvo Car Australia, Garry Rogers Motorsport and Volvo Polestar Racing as they build on their successes going forward.

"I congratulate David on securing a ride with this outstanding team and feel sure he will be a great asset to the team and well up to the challenge.

"I have followed David's motor racing career for some years now and he has the ability to quickly adapt to any type of car and to fit in with a new team."

Volvo Car Australia Managing Director, Kevin McCann said: "We're delighted to welcome PAYCE to the Volvo Polestar Racing stable.

"Like Volvo, PAYCE has a strong heritage in building desirable products and we're looking forward to working collaboratively with them over the years.

"We've made a big impact in our debut V8 Supercars season and we're well into planning for 2015, so it's an incredibly exciting time to join forces with PAYCE," he said.

The Melbourne-based team comprises some of the country's best talent, led by owner and retired touring car champion, Garry Rogers and current lead driver, Scott McLaughlin in car #33.

Brian Boyd said he was very impressed with the team's achievements in its relative short time together.

"Despite the Volvo Polestar GRM team only joining the V8 Supercars category this year, the team has exceeded all expectations with its initial win at the Australian Grand Prix support event earlier this year and more through the year," he said.

Brian Boyd said the Garry Rogers Motorsport team possessed a wealth of experience spanning five decades, over which time they have won most major races in the country, including the Bathurst 1000.

"Led by Garry, it's no surprise that Volvo Polestar GRM has quickly developed into a leading team and PAYCE is looking forward to a rewarding, exciting partnership in the coming seasons and welcomes the opportunities the relationship presents," he said.

Garry Rogers said: "We welcome Wilson Security and PAYCE in joining Valvoline at GRM, all tremendous supporters of Australian motorsport."
